

# The dark wood

Hidden on the outer rim  
of the earth grows the  
dark wood.

One monster (who on occasion  
turns into a tower) guards  
the tree's and leaves.

Welcome into the mishaps  
and misfortunes that have  
been ~~accumulating~~ accumulating  
right under our feet...

24 paintings  
5 TV's  
6 trees  
and a Monster  
(who hopefilly  
won't decide  
to tower  
himself up)
